Walkover Tracker Training Program

Executive Summary:

IndSTT is now taking up a major initiative of training engineering students. IndSTT is member of the apex Indian Engineering Guild, Engineering Council of India (ECI) which is created for professionalization of Engineering Operations. Recently ECI has entered an MoU for conducting internships with Indian Government Technical Education Regulator, AICTE (<http://www.aicte-india.org/downloads/eci.pdf>). This MoU authorises ECI and its member associations to provide compulsory internships to students of AICTE approved programs. Total number of candidates for these training programs are close to 2.5 million each year. It is a giant step, and IndSTT, jointly with other 31 technical societies / associations, would be contributing its bit in this major national training initiative by providing some of these trainings in trenchless sector. As trenchless technology is a borderless profession, IndSTT has been inviting Global Trenchless Stake holders to join this movement by working in partnership with IndSTT. Current program is aimed at enhancing the employability of engineering degree and diploma holder through internship training in the field of walkover tracking works essential for the success of horizontal directional drilling operations.

Program Introduction:

Application of Trenchless Techniques requires deployment of properly trained and skilled individuals. Workmen Training, therefore assumes greater significance in the success of Trenchless Projects. In India, IndSTT conducts several training programs for this sector. Through those training programs, individuals are prepared to work at different levels & capacities in Indian trenchless sector.

In addition to assisting the sector in getting such candidates, these programs help such candidates in being gainfully employed in the sector as well. Organizations interested to meeting their corporate social responsibilities requirements generally take benefits of such programs by sponsoring candidates in such programs.

Current program is one of such program where DCI India Private Limited has commissioned IndSTT to train & prepare 25 individuals, for the competences of Walkover Tracker with a special emphasis on advanced locating techniques & latest developments in the sector.

IndSTT-DCI Memorandum of Agreement (MoA):

INDSTT entered into training arrangement with the sponsoring organization DCI. Pictures of agreement signing event are attached as attachment-1

Upon entering into the agreement DCI released the grant sum of Rs, 5,54,000/- (Rupees Five Hundred Fifty Four Thousand Only) to IndSTT to initiate the program (The breakup of the grant was 5,50,000/- for Training & 4,000/-for screening test costs.).

Upon receipt of the agreement & grant funds, IndSTT initiated candidate enrollment in line with agreed selection procedure as above.

Upon completion of the batch formation of the 25 candidates the training program was initiated at IndSTT training centre at Faridabad Haryana. The training is being imparted in line with the structure outlined.

Various Salient Features of Agreement:

	Trade Name:	Trenchless Technology - Walkover Locating Trade
	The total number of candidates for this CSR program:	28
	Program duration:	45 days
	Minimum qualification required for this program:	Diploma in Civil/Electrical/Mechanical Engineering.
	Candidates enrolled under this scheme were provided training through theory & practical in class room as well as at project sites.	
	Project/site works of the enrolled candidates were decided in consultation with the sponsoring organization (DCI) to develop the job opportunities.	
	Candidates trained under this program are termed as the Walkover Locator .	
	Candidates fee has been paid by the sponsoring organization DCI	
	Certification is done for successful candidates by INDSTT.	
	Tracking & locating equipment were provided by the Sponsoring organization on returnable basis.	

Selection Procedure of the Program:

Mode of selection: The candidates were selected through a two stage of screening process organized by Indian Society for Trenchless Technology (INDSTT)

Written test: Aptitude & mathematical ability test.

Interview: Personal interactions of the qualified candidates were conducted & trainees were selected.

Written test was conducted on **28th March 2017** in CIDC /INDSTT Training Center, Plot No. 18, Sector 20 A Faridabad, Haryana, in which 128 students appeared. INDSTT developed the merit list of candidates desirous of seeking financial assistance from amongst the enrolled candidates & provided the same to sponsor (DCI) who selected the 25 candidates for the grant.

Training Structure:

Training has been provided to empower the trainees in basic knowledge and to make them adequately employable in trenchless industry. Structure of the training programs is detailed hereafter :

1. Basics of Mathematics & Measurement
2. Project Basics
3. HDD Basics
4. Locating Basics
5. Locating
6. Interference Avoidance Basics
7. Basic Bore Path Planning & Execution
8. Data Recording and Reporting
